

Hi all,

Welcome to the Autumn term. We said good-bye to 12 Robins last term and wish them all the very best in their new big schools.

First a big **thank you** for all the kind words, messages, cards and gifts at the end of last term. We are still eating some of them!

Our Lambs are now Robins and our Tadpoles Lambs!

We welcome this term **Phoebe, Hannah, Henry, Max, Harry, Toby & Christian (Robins)**, **Bea, Sofia, George, Lochan & Oliver (Lambs)**

An easy-to-use online learning journal, Tapestry helps us and parents to record, track and celebrate children's progress in early years education.

We are fun-packed and busy. There's so much for children to do, learn and take in.

Tapestry enhances this special time, helping us to capture children's experiences as well as monitor development and learning. This unique journal is shared online with parents, who are able to see special moments and view their child's progress. Parents can have separate logins.

Text, images and videos can be easily uploaded via PC, tablet or our mobile app - anywhere there's an online connection. Every entry helps to create a story of your child's time with us.

Term Focus – Harvest and caring for others.

Please could the children bring in photos or items from home to help them talk about themselves, what they have been doing, their holidays and home activities etc at circle time.

We will be collecting donations of dried and tinned food for distribution by the church for harvest festival later this month.

Please note www.kemertonpreschool.com has a parent section and news where I try to put all current stuff! The notice board too should be upto date. Please let us know if not!

We also have a facebook page - Kemerton Early Years

Our child development aims this term will concentrate on:-

Social development – Sharing / turn taking / Understanding their feelings.

Physical development – dressing and undressing moving towards independence.

Language development - Listening skills and following instructions.

Numbers – please help your children find numbers around your home. Where can you find them? Counting – how many steps can your child count around your house?
